glasses or stemware that offer innovative design or that can be used as host/hostess sets. Accent colors such as green and light accent colors: violet and lavender.

can double as cocktail glasses and dessert dishes or be transformed into a chip n' dip platter. New breakthrough technology have impacts on the brilliance and clarity of non-lead

a) Anchor Hocking's Presence 4-in-1 Cake Set is a functional space-saver. From just two pieces, Presence becomes a cake set, chip n' dip, punch bowl or tiered platter.

b) Bodum's Presso silicone band wraps around the glass, giving the user a firm grip. Presso's double-wall glass retains the temperature of the liquid inside for longer, whether hot or cold.

c) Bormioli Rocco's Symposium stemware features pulled-stem technology: a single piece of glass is shaped into both the bowl and stem, allowing for a high quality, durable glass.

d) Libbey's conversation starters, Rock-Tails, are shaped so the glasses rock back and forth, while not affecting stability.

e) For Rolf Glass's PourSure, a whimsical design is etched onto each wine glass, ensuring an exactly 4- or 5-ounce pour.
